

2023

MARCH 27 – MAY 20
MOSCOW, RUSSIA

THE INTERNATIONAL FORUM FOR SCIENTIFIC YOUTH “STEP INTO THE FUTURE” SCIENTIFIC AND ENGINEERING TALENTS AND LEADERS OF THE FUTURE

DEDICATED TO THE 135TH ANNIVERSARY FROM THE BIRTHDAY
OF A. N. TUPOLEV — THE OUTSTANDING RUSSIAN AIRCRAFT DESIGNER

Official Announcement / 07.11.2022

The grandiose contest of the best young minds of the planet – the «Step into the Future» International Forum, will bring together in Moscow, in spring, 2023, more than 1,000 ambitious and talented young people from Europe, America, Asia, Africa, Oceania. The themes of the Forum will cover the most hot topics in engineering, STEM, natural and social-humanitarian sciences.

Schoolchildren and students of primary courses of universities aged 12-22 who are willing to show publicly their scientific and technological achievements at the world level are invited to participate in the Forum. Individual and team projects (max. 3 authors) can be presented at the Forum. Working languages at the Forum are English and Russian.

Chief organizers of the Forum are the Bauman Moscow State Technical University and the Russian Youth Engineering Society (RYES).

The Forum will make achievements of its participants open to a wide global community. Principal actions of this impressive event will be broadcast on the «Step into the Future» key website and the Forum website. Events of the Forum will be traditionally covered by central TV Russian channels, as well as foreign and Russian mass media.

The Forum is organized in a unique format. Its events will be held in a first-class academic environment – on the basis of 14 world-famous research institutes and 13 leading Russian universities.

For the first time, the Forum will be two-staged – in face-to-face and distant formats. Moreover, simultaneous participation in both face-to-face and distant programs or in any program you like is also possible. Each of the Forum stage has its own system of awards.

The face-to-face stage of the Forum is scheduled for late March – early April. It will include an International scientific and technological exhibition, innovations lecture courses, activities of Russian workshops, a festival of young couturiers and designers, an Opening Ceremony and the first Award Ceremony, a scientific-educational program with visits to research laboratories, engineering centers, high-tech enterprises, museums and other cultural facilities.

The distant stage of the Forum will be held in April-May. In this time period, the international distant workshops of the Forum will take place on a digital platform of the «Step into the Future» program, and the second Award Ceremony will be held.

The basic format for appraisal of achievements at the Forum is the defense of research and development findings in the presence of scientists and experts with participation of age-mates and invited professionals. At the Forum workshops, the defense will be held face to face with a collegiate jury composed of min. 5 scientists and experts, at the exhibition – in the form of individual interviews (max. 10 interviews within 3 working days of the exhibition).

Based on the Forum results, more than 250 winners and laureates in various categories, including in individual all-around championship and professional nominations, will be awarded with prizes of workshops, medals and scholarships, prizes+ from high-tech companies, universities and research organizations.

The Forum is the key event of the «Step into the Future» program – the leading Russian organizer of works together with talented youth in the field of researches and developments. More than 150,000 talented schoolchildren and students participate in the program every year.

The «Step into the Future» program was founded in 1991; as of today, it is implemented by the Bauman Moscow State Technical University and RYES with participation of 165 regional representative offices. The program has accumulated more than 25-year experience in international activities. In 2005, it was the organizer of the XVII-th European Union Contest for Young Scientists (EUCYS'2005) which was held in Moscow with participation of official delegations from 35 countries.

Registration of applicants for competitive admission and presentation of their projects will take place from November 15 to December 29 on the Program website <http://www.step-into-the-future.ru/eng>. The projects should be drawn up in accordance with the rules posted in respective section on the website <http://www.step-into-the-future.ru/eng>. The registration fee in the amount of 850\$ is required for participants of the face-to-face stage and covers costs of accommodation, scientific and educational program, transportation and organizational expenses.

If you have any questions about your participation, please contact the Secretariat of the «Step into the Future» program by phone +7 (499) 267-55-52, +7 (499) 263-73-60 or by e-mail sitfp@bk.ru. Information about the Forum is posted on the main website of the «Step into the Future» program (www.step-into-the-future.ru/eng).
